Technical Information

Dry Pressed Ceramic
Wall Tile

8 mm Thickness

Water Absortion Capacity
14.95%

Lenght, width, thickness,
side straightness, or-
togonality and flatness:
conform to the requisites
applicable to each model
as defined in the stan-
dard UNE-EN 14411 (ISO
13006) for group BIII

Flexion Resistance N/
mm²: >23

Lineal Thermic Dilata-
tion: 7·10⁻⁶/°C

Thermic Impact Resis-
tance

Expansion Due To Mois-
ture: <0.6%

Cracking Resistance

Frost Resistance

Chemical Resistance:
Soft and strong, bases
and acid: type GLA, GLH
Cleansing products and
chemical
products for swimming
pool water: type GA

Stains Resistance: Type 5

Mohs Scale: 2

Radiactive test: apt for
construction

About Collection

/Made in Spain

Bricks are on trend. This collection was designed to bring movement and visual flow to this timeless format. Crafted in Spain, it stands out for its distinctive features:

- Relief
- Screen finish

Together with the pre-cut format, these elements create a harmonious blend that adds depth, texture, and character to any space. The screen finishes are specifically developed to emulate the authentic look of natural brick, enhancing your home with a warm and inviting atmosphere.
